A PUBLIC GATHERING
PLACE WHERE TENANTS
ENJOY THE BEAUTY OF
AN INDOOR GARDEN

Jamieson Place Winter Garden

A great venue for events and photo shoots

The 25,000 square foot Jamieson Place Winter Garden is one of the largest indoor gardens in Canada. It offers an impressive public gathering place where building tenants and the public can enjoy the beauty of an indoor garden all year round. It is also a very popular location for events and for photo shoots.

The Garden is located on the +15 level of the building, and is connected to BP Centre. Seating on black leather couches and benches is strategically placed to enhance views of three wonderful works of art:

- A massive Green Wall, with over 20,000 plants (more than 20 varieties) was designed to artfully represent the foothills and majesty of the Canadian Rockies. Each plant variety was deliberately chosen according to foliage, texture and form to stand in for the land's striking topography. The wall is 22 feet high and 100 feet wide in 2 sections, and was created by Landscape Architect, McRae Anderson of McCaren Designs.
- Structural steel 'sheaves of wheat' that make up the Fields of Fame of Alberta Champions. Each sheaf honours a person who has made a significant contribution to the fabric of the Calgary community. For more information about the Fields of Fame, visit www.albertachampions.org/fieldsoffame.htm.
- Chandelier style blown glass sculptures hang over the infinity pool in the centre of the Garden and were sculpted especially for the Winter Garden by famed glass sculptor Dale Chihuly, whose work is a part of indoor and outdoor gardens throughout the world. Each sculpture weighs around 500 pounds, and is composed of over two hundred pieces of blown glass. For more information about Dale Chihuly and his work, visit www.chihuly.com.
